DESCRIPTION

The Eye Floaters Research Organisation (EFRO) organization committed to a research grant contract with the Ophthalmological Department of the University Hospital of Antwerpen to support the eye floaters research project led by Prof. Dr. Tassignon.

The Eye Floaters Research Organisation (EFRO) funds money through a YouCaring crowd-funding website to support this research (<https://www.youcaring.com/dr-tassignon-604157>).

The objective is to have an effective and safe treatment for all eye floaters sufferers as soon as possible. All the crowd-funded money is destined to contribute to this official research project of the Ophthalmological Department of the University of Antwerpen (Belgium).
